

# Invitation

## Info Point External Cooperation

Rue de la Loi 43, Ground floor  
Friday 16 October, 14.00 – 15.00

### Making Technical Cooperation more Effective: Mission Possible? Join the debate

On 16<sup>th</sup> of October (2 pm) EuropeAid will launch [capacity4dev.eu](http://capacity4dev.eu), an interactive website supporting the European Commission's reform of technical co-operation.

But is making technical cooperation more effective a "Mission Possible"?

Join the debate between:

- Koos Richelle, Director General of EuropeAid
- Paul Engen, Director of the European Centre for Development Policy Management.

There will be time for questions and answers.

Coffee will be offered after the debate.

Capacity4dev.eu is an essential tool of the [EC's Strategy for Technical Cooperation reform](#).

It provides a forum for European Commission staff, partner countries, other donors and development practitioners to share ideas and expertise.
