Question: How useful & supportive is your project to the FLEGT process ? In your country ? At global level ?

- The project intends to Increase understanding of FLEGT initiative at government level mainly, in 4 South American countries (Brazil, Colombia, Ecuador and Peru) by creating a proper environment to enable or consolidate FLEGT Processes. Therefore the actions support this initiative a 100% while set a political arena which contribute to reduce illegal wood in the project countries as well as in the European markets at medium term.***

Question: : What needs to be done (by you, by others) to make your contribution stronger ? To have more impact ?

The project needs to generate synergies with the public and private sectors at regional level around FLEGT (REDD, Lacey Act, TLC). Moreover, the projects needs to catalize and favour join actions between the different EU projects established in each country by enabling strategic alliances and coordinated plan of actions.
