

Introduction to the Market Systems Development approach

Digital Training on Private Sector, Trade Policies
and Best Practices – Day 6

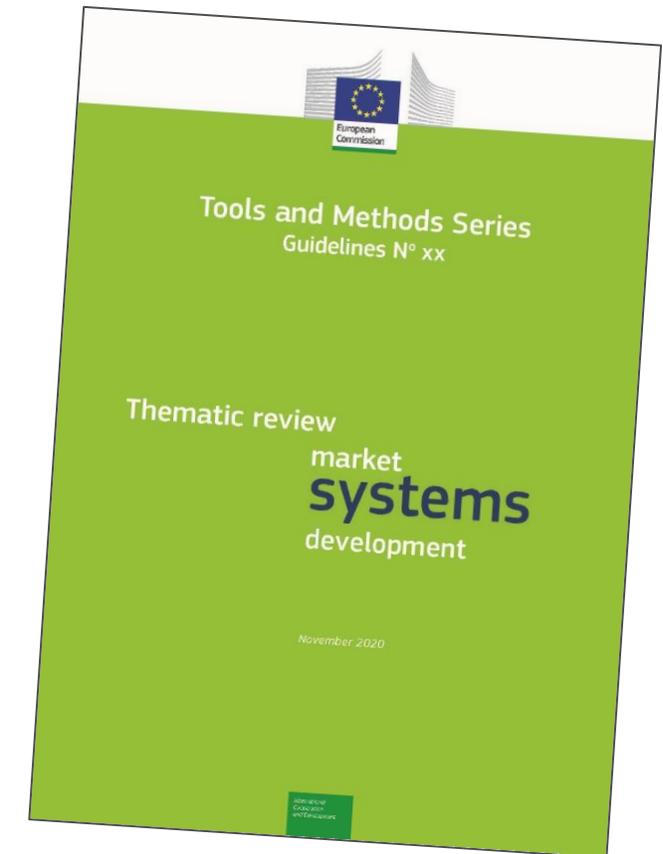

03 December 2020

DEVCO Resources on the MSD approach

The screenshot shows the DEVCO Academy website interface. At the top left is the European Commission logo and the text "DEVCO ACADEMY". To the right are navigation menus: "HOME", "ABOUT US", "RESOURCES", "TOPICS", and "ENGLISH". The main content area features a webinar titled "Introducing a Market Systems Development Approach in EU Private Sector Development Support". It includes a small image of people in a meeting, a "Webinar" label, and text describing the webinar's purpose and duration (1.5 h). The text states: "This webinar will introduce the MSD approach to DEVCO programme managers in Delegations and HQ. It aims to improve understanding and take up of the MSD approach in the programming and implementation of EU TPSD support, and the potential of the approach to increase the sustainability and poverty impact of related actions. The webinar draws on a new Thematic Review on the MSD approach that has just been released by DEVCO unit C4 as part of the TPSD Methods & Tools series. It is intended for programme officers with at least some basic experience in formulating and/or implementing EU TPSD programmes." Below the text, it says "Duration: 1.5 h" and "This webinar is destined to EC Staff."
