#8

GCCA/GCCA+ IMPACT AND SUSTAINABILITY STUDY

## Ari Atoll Solid Waste Management (AASWM)

5 pilot islands

Island Councils staff trained

Training in composting techniques

Composting pads and recycling equipment

Cost recovery system

Awareness raised

## Clean Energy for Climate Mitigation (CECM)

Solar photovoltaic systems installed

Government and private staff trained

Energy efficiency awareness

Energy audits

## Wetland Conservation & Coral Reef Monitoring project (WCCM)

10 Atoll Councils members trained

Community-based wetland management

Ecotourism facilities and protected areas

Rainwater harvesting and desalination

Coral Bleach Risk Assessment

- Institutional strengthening
- Increased adaptive capacity
- Waste management systems
- Public private partnerships
- Awareness in atoll communities
