

GCCA+ Support Facility services

Demand-driven technical assistance

Designing and delivering effective and targeted support is central to the GCCA+ initiative

What

1. Technical support

- **Annual Action Plans (AAPs):** In the field and remote support to the formulation of Action Documents, review of logframes, drafting of ToRs or guidelines for calls of proposals.
- **Implementation phase:** Response to ad-hoc requests through short-term assignments supporting MRV (MRV mapping of publications, tools and methodologies, training material; support to setup), NDCs (mapping of key initiatives, supporting implementation), support to project monitoring systems and quality review of project evaluations, capacity building (revising training material, training needs assessment, development of full training plan), communication (supporting communication strategies), sharing knowledge, cross-visits, specific studies.

2. **Global and Regional policy dialogue** (GCCA+ Global events, GCCA+ regional conferences, international events).

3. **Communication and Knowledge Management** (Guidelines, Styleguide, Collaborative Platform, GCCA+ portal www.gcca.eu, YouTube channel, Newsletters, promotion of projects using various tools).

4. **Capacity building and Training material** for project officers on climate change actions.

The services can be provided in country or remotely.

Where

Technical support can be provided **in GCCA+ target countries** implementing GCCA+ project or not.

Support is open to EUDs and other institutions implementing or not a GCCA+ project such as Governmental institutions, Regional organisations, and Non-state actors (CSOs, universities and research institutions).

How

Technical assistance is to be claimed by **the European Union Delegation (EUD)** responsible for a GCCA+ project or on demand by project implementers.

To receive technical support EUDs can contact:

- DEVCO-C6 GCCA+ project manager
- The EU GCCA+ Support Facility (global)

Support to AAP 2019

Experts from the support facility supported the formulation of 8 new national programmes out of 9 approved projects under the GCCA+ (Burkina Faso, Cameroon, Chad, Cuba, Haiti, Mali, Namibia, Senegal, Sri Lanka, Suriname, Rwanda, Timor Leste).
