Forest Partnerships. Building on FLEGT VPA experiences, the DG INTPA is now expanding engagement with partner countries through **Protect and Restore the World's Forests**. has long supported the protection, restoration, and sustainable management and use of the world's forests. More recently, the European Commission has stepped-up this ambition towards partner countries in the context of the external dimension of the European Green Deal, the Farm to Fork the Biodiversity Strategies, the Communication Stepping up EU Action to **European Union**The

How can we do better in community-based forest management and in corporate logging?

The webinar will cover the positioning of **sustainable forest management** within the EU cooperation policy context. The objective is to enhance EU staff in HQ and EUDs understandings of the two main tropical forest management models, namely **industrial forest concessions and community forests**. The webinar will explore the opportunities for improving the sustainability and benefits of both modalities.
