

**Webinar 5: Transboundary water management**  
**Series N°6 of Webinars on “Greening EU cooperation (Environment and Climate Change)”**

**4th of October 2022 from 12:30 to 14:30**

**Objectives:** The overall objective of this series of webinars on “European Green Deal - Greening EU cooperation” is to enhance participants’ knowledge and understanding of the European Green Deal and its implications for EU cooperation; and strengthen the capacity of the participants in “Greening EU cooperation” through integrating environment and climate change-related themes into all sectors and all instruments of EU development cooperation.

The specific objectives of this Transboundary water management webinar are for participants to:

- Enhance participants’ knowledge of transboundary water cooperation frameworks and arrangements;
- Discuss opportunities and challenges linked to transboundary water management, notably in the frame of joint actions between riparian countries;
- Be acquainted with some cases and tools – exchange on good practices.

**Time investment: Preparatory activities xh/ Zoom meetings x h**
