# Key ESS initiatives on emerging topics

- COVID-19: this global crisis teaches us how fragile we are, as individuals and as societies
- It introduced profound changes in our lives; we shall embrace them and adapt our working habits
- This has several impacts also on evaluation
- The global evaluation community is developing references, reflections, tools to help commissioners of evaluation and evaluators
- #EVALCRISIS is an INTPA/ESS initiative, which gathers and shares useful references, and produces original reflections (podcasts, blog posts)
- Follow the initiative on <https://europa.eu/capacity4dev/devco-ess>
