

# LoCAL event at CAS2021

20 January 2021

Date: 26 January  
2021

Time: 9.00-11.00 CET

The Local Climate Adaptive Living Facility is co-hosting the event "Locally Led Adaptation" at the **Climate Adaptation Summit** (CAS2021) at 09.00 -11.00 CET on **26 January**. The event is part of two days of online discussion, debate and information sharing convened by the Netherlands. Climate change is happening, and the world needs workable solutions for adaptation.

LoCAL provides a mechanism to integrate climate change adaptation into local governments' planning and budgeting systems, increase awareness and response to climate change at the local level. LoCAL is a mechanism, hosted by the UN Capital Development Fund (UNDCF), which can be tailored to specific country circumstances. It makes it possible to directly support the communes and their populations so that they can climate-proof and finance their development plans.

LoCAL is supported by the European Union through the Global Climate Change Alliance Plus (EU GCCA+) initiative.
