

GCCA+ Regional Conference Africa 15-18 OCTOBER 2019

10 October 2019

The GCCA+ hosted a regional climate change conference in Kigali, Rwanda, on 15-18 October 2019, bringing together climate change project managers, policy experts and decision makers to consider how and adaptation and ecosystem based approaches, sustainable landscapes, and systemic approaches to NDCs and climate finance could help to unlock growth and long-term development for African countries.

The objectives of this conference were to explore pressing issues that will impact the ability of African countries to achieve economic growth that is environmentally and socially inclusive and to showcase GCCA+ projects across the continent and in Rwanda, as well as promoting their learnings in a community of practice and informing ongoing strategic discussions around the delivery of EU funded climate assistance in Africa (and beyond)
