

Threats:

- Government wants to expel Sisu people
- Direct aggressions by the army
- Gov+army may want to get control of Sisu land
- Mining company hit squads harass Sisu communities

Selected vulnerabilities:

- No access to decision-making processes
- Discrimination
- Loss of livelihoods
- Exposed to potential hostilities by Demo people
- Unable to shed light on hidden action by hit squads

Protection Objectives (reduce threats):
Perpetrators and d-b stakeh.:
-Ensure army does not attack communities
-Stop action by hit squads

Reduce vulnerabilities:
-Access to legal aid
-Access to decision-making spaces
-Information about hit squads
-Humanitarian assistance

Risk = $\frac{\text{Threats} \times \text{Vuln.}}{\text{Capac.}}$

Increase capacities:
-Legal info about ownership of land
-Train leaders (women and men) in legal claims

- Capacities:
- Ownership of land
 - Own organizations
 - Long term resistance as a minority
 - Strong family and group ties

$$\text{Risk} = \frac{\text{Threats} \times \text{Vuln.}}{\text{Capac.}}$$

Capacities:

Ownership of land

Threats:

Government wants to expel Sisu people

Direct aggressions by the army

Gov+army may want to get control of Sisu land

Mining company hit squads harass Sisu communities

Protection Objectives (reduce threats):

Perpetrators and d-b stakeh.:
