

3rd GMES & Africa Workshop

Long term management of natural resources

25|26 June 2013
Sharm el-Sheikh
Egypt

Design by: Instituto de Investigação Científica Tropical

Background

GMES and Africa aims to provide a framework for long-term African-European cooperation in the definition and implementation of operational Earth Observation based services driven by African needs. GMES and Africa will make available tools needed to inform and support the implementation of policies addressing key societal benefit areas. It will build on existing initiatives and exploit synergies with related activities. Principles such as equitable, transparency and African ownership will guide the implementation.

The process, launched in 2007, foresees the development and adoption of a GMES and Africa Action Plan addressing 9 thematic areas (*Long-Term Management of Natural Resources, Marine and Coastal Areas, Water Resources Management, Impacts of Climate Variability, Natural Disasters, Food Security and Rural Development, Conflicts and Political Crisis and Health Management Issues*) as well as 5 cross cutting issues (*Policy and Institutional, Infrastructure, Capacity Building, Financial and Monitoring and Evaluation*). As requested by the Space Troika and endorsed by the GMES and Africa Coordination Team, the first 3 workshops will address: Marine and Coastal Areas, Water Management and Natural Resources.

The 3rd GMES and Africa workshop on Long Term Management of Natural Resources is conceived in the framework of the Joint Africa-EU Strategy Support Mechanism (JAES SM), financed by the European Commission under the 10th EDF, to contribute to the implementation of the JAES Action Plan (AP). The organisation is carried out by an organising and scientific committee including FP7 supporting projects (BRAGMA), both European and African Union Commissions and relevant experts and institutions from African countries.

Objectives of the Workshop

The Workshop will bring together experts on water resources management activities in African countries, representatives of the African and European Union Commissions, the African Regional Economic Communities, and other relevant stakeholders. The objective is the finalisation of the GMES & Africa baseline plan and the endorsement of Long Term Management of Natural Resources requirements through consultation with relevant African stakeholders.

ORGANISING COMMITTEE

Mahama Ouedraogo	AUC / HRST
Monica Ebele Idinoba	
Hambani Masheleni	
Rodrigo Vila-De-Benavent	EC / ENTR
Michel Massart	
Paolo Roggeri	EC / JRC
Nancy Dzokoto-Pomenya	EC / DEVCO
Jonas Frederiksen	JAES SM
Sara Jones	
Mariane Tambwe	
Marc Kwai-Pun	
Islam El-Magd (NARSS-EG)	BRAGMA
Ana Morgado (IICT-PT)	
Jenifer Rodrigues (IICT-PT)	
Filipa Lacerda (IICT-PT)	

SCIENTIFIC COMMITTEE

Hannah Jaenicke	Independent Consultant
Andre Bassole	Independent Consultant
Andre Nonguierma	UNECA
Islam El-Magd	NARSS
Mamdouh Abdeen	
Ganiy Agbaje	NASRDA
Herve Trebossen	OSS
Luc Andre	MRAC
Peter Zeil	PLUS
Richard Mavisi	MoHEST
Paolo Roggeri	EC /JRC
Philippe Mayaux	EC /JRC
Michel Massart	EC / ENTR
