## SAVE THE DATE: YOUNG VOICES FOR INCLUSIVE GOVERNANCE

*"Without young people's ideas we... would be missing the best hope for a successful set of goals.  
Bring us your ideas."*

- Graça Machel, International advocate for women's and children's rights  
and member of the UN High Level Panel on Post-2015

Young people make up half the world's population, yet too often their opinions on the issues which affect them are ignored.

If the post-2015 framework is to promote truly inclusive and sustainable development, **young people's participation and influence** in the decisions which affect their lives is essential.

Join the conversation led by young people themselves at this year's **European Development Days**, taking place on **27 November, 09.30-11.00** at Tour & Taxis, Brussels.

Hear what they have to say on the critical issues of **participation and governance** for the successor framework to the Millennium Development Goals.
