

# Aid Effectiveness

Aid Effectiveness and Sanitation: putting the Five Year Drive (5YD) in Action

## Call for immediate action for sanitation

The Africa Water Week offers a unique opportunity to take the call for immediate action for sanitation further. Through presentations, a panel and plenary discussions, this seminar will provide an excellent platform to discuss and identify concrete actions to be taken by the different stakeholders. Speakers include high-level representatives of developing countries, national governments and decision makers of donor organisations as well as other recognised sector experts.

*Come and Join the Discussion!*

**24 November | 2:00 pm to 3.30 pm | UNCC- Conf. Room N°5**
