# The ACP-EU Energy and Water facilities

- Thematic **co-financing instruments** for cooperation projects in **ACP countries**

**EF:** Access to sustainable and affordable energy services for the poor living in rural and peri-urban areas

[http://ec.europa.eu/europeaid/where/acp/regional-cooperation/energy/index\\_en.htm](http://ec.europa.eu/europeaid/where/acp/regional-cooperation/energy/index_en.htm)

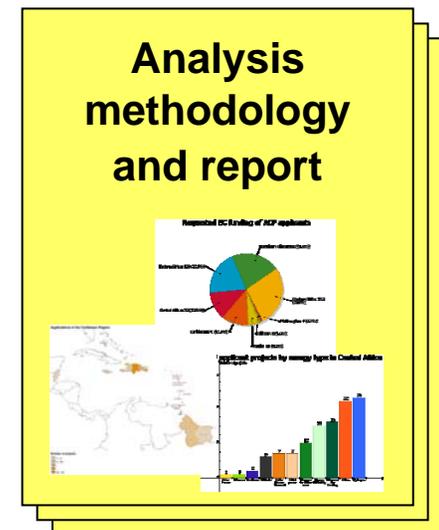

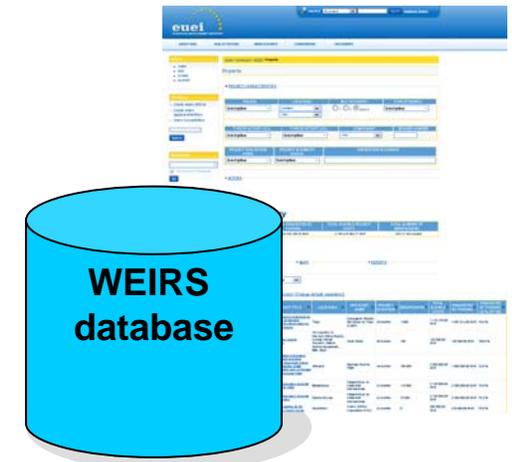

**WF:** Sustainable access to safe drinking water and basic sanitation & improved water governance and sustainable management of water resources and infrastructures

[http://ec.europa.eu/europeaid/where/acp/regional-cooperation/water/index\\_en.htm](http://ec.europa.eu/europeaid/where/acp/regional-cooperation/water/index_en.htm)

- Established within the EU Energy (2005) and Water (2004) Initiatives (EUEI and EUWI)

## Provide support and tools to AIDCO C7 unit:

- Centralise information on projects and applicants for a better data and process management;
- Assess the quality and impact of the projects funded by the Facilities;
- Design the future calls for proposals on the basis of the lessons learnt;
- Make the Water and Energy Facilities more transparent and visible.

---  
**PRELIMINARY ANALYSES ON ENERGY FACILITY 2010 CONCEPT NOTE SUBMISSION**  
  
3<sup>rd</sup> March 2010

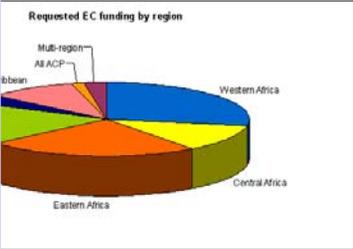

1. GENERAL FIGURES ..... 2
2. GEOGRAPHICAL PROJECT DISTRIBUTION ..... 2
3. PROJECT DISTRIBUTION BY APPLICANT LEGAL STATUS AND ORIGIN ..... 4
4. PROJECT DISTRIBUTION BY TYPE OF ENERGY ..... 6

**Geographical project distribution**

**WARNING**

The information as indicated by the applicants has been used (so far no data cleaning).  
All these results and charts were produced with the WEIRS database analysis tools.  
Number of considered CN: 593 out of approximately 660 (import of Batch 1, 2, 3 and 4 + 4 files from yemil batch)  
  
No result interpretation at this stage.

**Requested EC funding by region**

NEWS

ACP-EU ENERGY FACILITY

CALL FOR PROPOSALS – OUTSTANDING PARTICIPATION!

667 proposals for a total requested amount of €1 billion have been submitted to the Call for Proposals launched on 30 November 2009.

The administrative check of Concept Notes has been finalised on 22 March. 54 proposals have been rejected on different grounds: concept notes submitted after the deadline, amount requested too high or too small, countries or applicants not eligible... 613 proposals have been accepted and are now being evaluated. The evaluation of Concept Notes is expected to end by the end of April 2010.

In this release you will find a first analysis of the proposals submitted to this Call.

1st results of the Call for proposals: 667 proposals submitted for a total requested amount of €1 bn

First analysis of the proposals submitted to the Call

1. Large participation

If one compares both the number of proposals received and the total amount requested to the Energy Facility with the figures for the Call launched under the 1<sup>st</sup> Energy Facility in 2006, one can see a significant increase in this Call:

	EF 1 (2006)	EF 2 (2009)
Number of proposals received	307	667
CN evaluated	230	613
Grants requested	€ 565 million	€ 978 million
Total cost of projects	€ 1330 million	€ 2213 million

This steep increase in participation reveals increased interest and expertise in the area of access to energy services and investment in renewable energy sources. It is also probably linked to a better knowledge on the Energy Facility.

The preliminary statistics below have been produced with the support of the Joint Research Centre of the European Commission.

More information on the Energy Facility can be found on [www.ef-facility.eu](http://www.ef-facility.eu) or via email: [Europeaid-energy-facility@ec.europa.eu](mailto:Europeaid-energy-facility@ec.europa.eu). For information on the ongoing projects, consult: [www.ef-facility.com](http://www.ef-facility.com).

# Thank you for your attention!
