About PWA

Notice
More than 500 actions were presented

Classification Theme

Classification Theme	Percentage
Disaster Mitigation & Risk Management	9%
Water Resources Management & Benefit Sharing	11%
Safe Drinking Water & Sanitation	21%
Water for Food & Rural Development	14%
Water Pollution Prevention & Ecosystem Conservation	14%
Others	1%

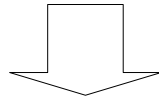

Feature
The PWA-web will introduce some water actions selected from the registered participants for the PWA-web periodically as "Feature" on this web site.
We are looking forward to receiving your contribution of water actions to our "Feature content".
The first issue for the Feature is "The Network of Asian River Basin Organizations (NARBO)".

Registration Procedure
Create the PWA sheet(Create file and download)
Create the PWA sheet(Upload file)
It is necessary to follow the steps listed in below for registering and modifying the PWA-web site.
1. Input information on water actions to the PWA-Sheets and create your both your new XML and HTML files.
2. Upload your new XML and HTML files to your web site.
3. Notify your newly uploaded URL information to the PWA.
Please see the PWA manual (PDF-File) for further detail.
If someone does not obtain its own web site, or has difficulties to proceed the above 1,2,3, please send the XML file attached to the PWA office (office@pwa-web.org) via e-mail.

Why PWA is a useful tool?

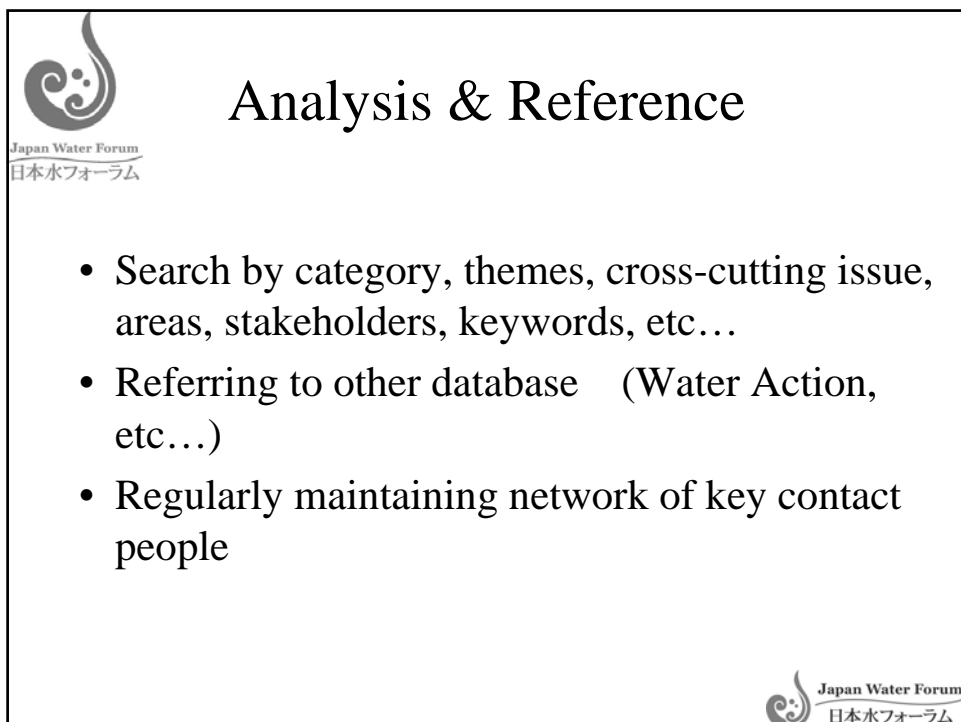

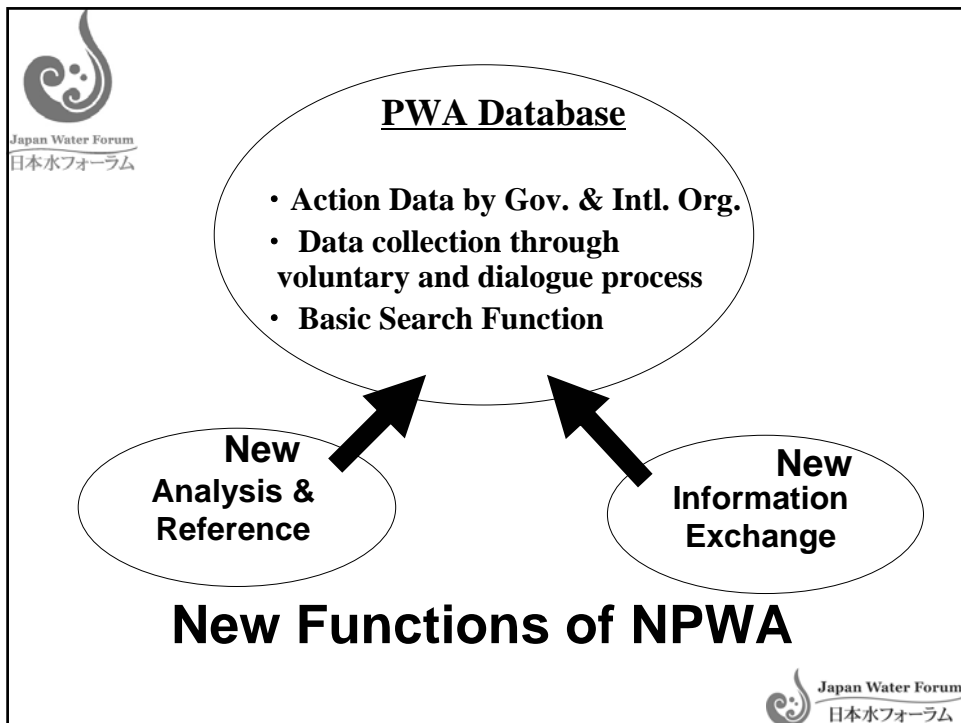

- **Mutual Monitoring**
- **Sharing Information**

- ✓ **Enhance Transparency**
- ✓ **May Attract Other Counties/ Donors/ Experts**

Concept of New PWA

-What's the difference?-

Information Exchange

- Virtual Discussion Rooms
 - discussion subjects
 - automatic interpretation
 - analysis and reference function to facilitate session chairs
- Linking with documents of major conference
