Think interlinked!

Being prepared for a resource scarce future and meeting today's access challenges (water, energy and food) requires solutions that take into account all three sides of the water, food and energy nexus.

BONN2011 GOALS

Bonn2011 Conference
The Water, Energy and Food Security Nexus
Solutions for the Green Economy
16-18 November 2011

The Bonn2011 Conference provides a multi-stakeholder platform to

- create a better understanding of the interlinkages between the sectors and to develop a joint perspective on common challenges and their interrelations and
- discuss options and solutions as well as enabling framework conditions and incentives for change for those topics which bear the largest positive impact potential.

CONFERENCE OUTCOMES

- Positioning the water, energy and food security nexus as an important dimension within the **Rio2012 process** and the **Green Economy debates**
- Developing **policy recommendations** focusing on cross-sectoral approaches
- Launching of **specific initiatives** to address the water, energy and food security nexus in a coherent and sustainable way
