- Distance and digital learning

### Reproductive, Maternal, Child, Adolescent Health and Nutrition (RMNCAHN):

- Strengthening Health Systems
- Community engagement
- Sexual and reproductive health

### Reduction of SGBV (DE, SE)

### Justice (DE)

- Rule of Law & Human Rights

### Governance and human rights: EU trademark

### Synergy with TEI Climate Action

### M&E Frameworks & Geographic zones of implementation

## MODALITIES/TOOLS

Structured policy and political dialogue

Technical assistance

Large scale projects (MS agencies, UN, IFIs)

Twinning

Support to individual families and communities

### Financing instruments:

- CSO grants
- IDA loan
- Blending and Private investment
- Grants and Loans

### Budget support

150M EUR: Education (EU, IFIs, UN, MS Agencies)

50M EUR: RMNCAHN (SE)

25M EUR: SGBV (DE, IE, SE)

25M EUR: Access to Justice (DE)

### TRANSFORMATIONAL POTENTIAL

- Empowerment of Zambia's youth
- Promote reforms and investments in human development

## KEY DELIVERABLES

### Human Development

1. Empowerment of Zambia's youth. Please be more precises.
2. Promote reforms and investments in human development.

A joint sector approach with MS (SE, IE and DE) is envisaged to build a healthier, adequately fed educated and resilient population, with youth and women acting as agents of change making a transformative and multifaceted impact on Zambia's social, economic, and political development.

One point of entry will be on early childhood education, but the programme will also focus on health and multisector approaches to nutrition.

Joint funding is envisaged to finance this project, as well as potentially budget support (discussions ongoing).

\*This Team Europe Initiative is work in progress

## NATIONAL CONTEXT

Country of young people: 85% <35 years old

Many deprived of right to education, health care and legal assistance

National policies:

- 8th NDP 2021-26
- Maternal and neonatal mortality declared national emergency 2019

Median age is 17.6 years

Girls more vulnerable to SGBV

3% Population growth per year

Learning crisis: Low proficiency levels

Legislation and policies in place

5% Reading + 3% Numeracy (15 years old)

Decreasing budget allocations and weak governance

Gender inequality

Shrinking space for Zambia's civil society

Limited access to justice and rule of law

Drought 2019 + COVID-19

## GEOPOLITICAL CONTEXT AND RELEVANT SDGs

Agenda 2030

Ongoing: GAVI, GFTM, GPE, GFF, UHC EU-WHO partnership
