

Technical Assistance Support to the ECOWAS Regional Electricity Regulatory Authority (ERERA)

16 April 2018

Project start date

15 January 2023

Project end date

The overall objective of the project is to contribute to combat poverty through **enhanced regional integration** in the West Africa energy sector by improving the **energy sector regional governance**.

The specific objective consists in supporting ERERA in its role of **monitoring, control, and market supervision** by implementing effective regulatory mechanisms contributing to the **development of the regional electricity market**.

**Funded by
the European Union**
