skaapehi@nust.na

Date: 1st Session 9th November; 2nd Session 10th - November, 3rd Session - 13th November, 4th Session 17th - November 2023

Time: 8:30- 12h30 CAT

Venue: NUST Lower Campus, Science & Technology building, 4th floor, Conference Room

About the workshop

The workshop explores the conditions for developing vibrant neighborhoods by assessing external influences, challenges, and integrative planning approaches. The focus is on those elements that can be changed and can support making housing more achievable, accessible and realistic. During the 4 thematic sessions, strategic action plans will be developed by assessing political, economic, sociological, technological, legal, and environmental factors. The aim is to identify entry points for meaningful change.
