

Regional - Asia

● Sustainable Aviation Fuels

Supporting the development, production and use of sustainable aviation fuels.

Regional - Central Asia and Mongolia

- Partnerships with private institutional investors on climate-smart solutions digital transformation and financial inclusion.

Regional - Central Asia

● Critical Raw Materials

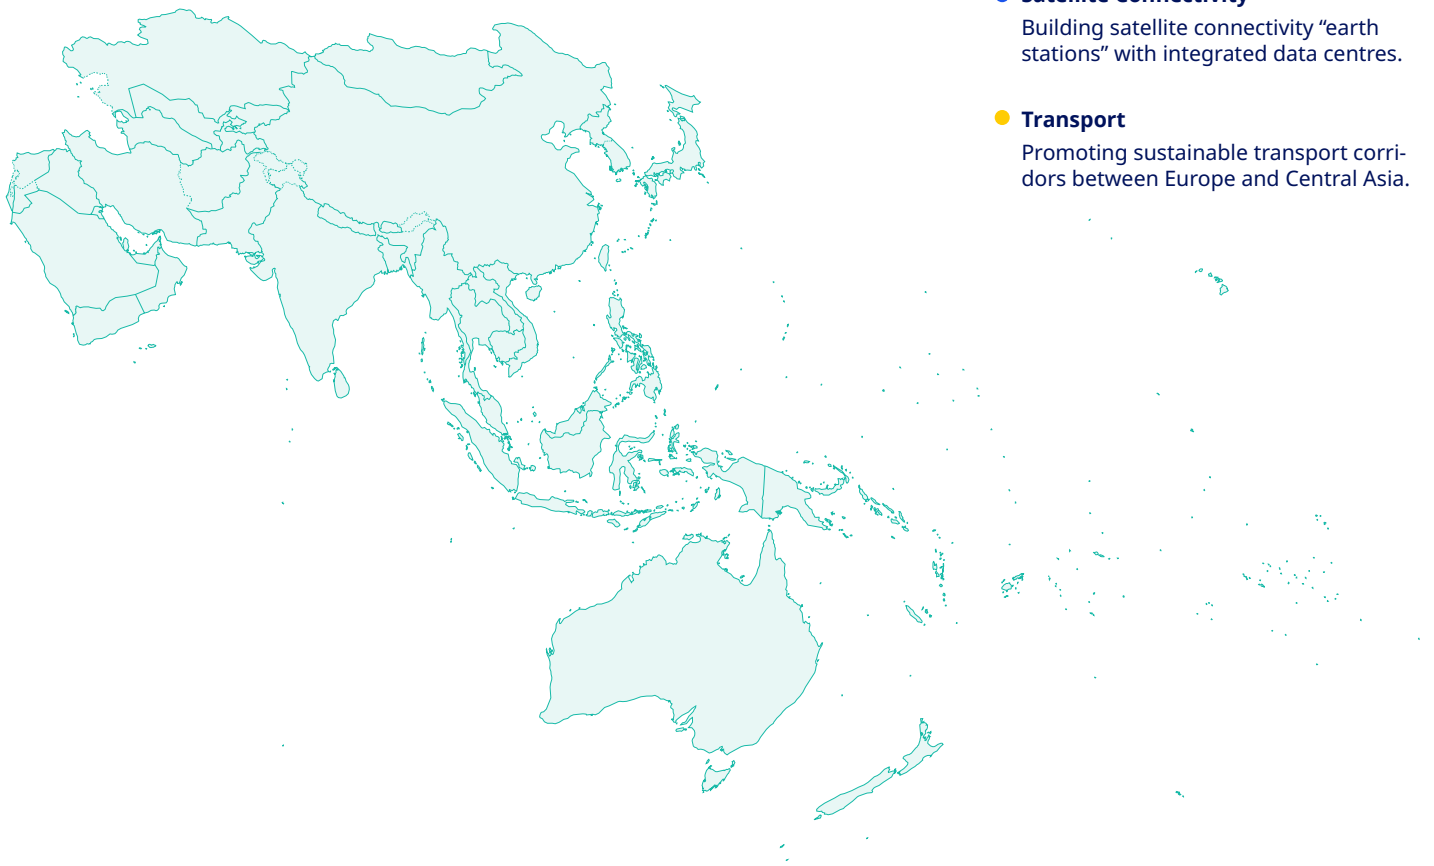

Technical assistance promoting best practices for resource classification, modernisation of mining and refining processes. Investments to support exploration of critical raw materials.

● Satellite Connectivity

Building satellite connectivity “earth stations” with integrated data centres.

● Transport

Promoting sustainable transport corridors between Europe and Central Asia.

Regional - South Asia

● South Asia Energy Connectivity

Construction of solar photovoltaic power plants, hydro power plants and respective transmission lines for grid connection.

Regional - South East Asia

● Transport corridor

Upgrade of the Laotian national highway n° 2.

Regional - Pacific Islands

● Climate

Strengthen the climate resilience of Pacific Islands’ ecosystems, economies and communities.

● Digital ● Transport ● Health ● Climate and Energy ● Education and Research

These outputs do not capture the whole of the Team Europe engagement in country. They capture concrete investments under Global Gateway. They will be accompanied by soft measures in a 360° approach, so as to improve the policy, regulatory and business environment, develop skills, foster innovation and transfer technology.

The boundaries and names shown and the designations used on this map do not imply official endorsement or acceptance by the European Union.

EU-Asia and the Pacific flagship projects

Kazakhstan

- Implementation of partnership on raw materials, batteries and renewable hydrogen

Mongolia

- Construction of the 220 km Choir-Sainshand double circuit 220kV transmission line
- Implementation of Forest partnership
- Construction of a new energy efficient hospital in Darkhan city

Bangladesh

- Development of solar and wind power energy investments
- Middle and last mile connectivity for 8mn people in rural areas

Nepal

- Implementation of Team Europe Initiative on Green recovery
- Quality Education for All: Development of School physical infrastructure and teacher education

Pakistan

- Climate Resilient Infrastructure (hydropower and irrigation systems) and Technical and Vocational Education and Training (TVET) Centres
- Livelihood Support and Community Infrastructure Programme (LACIP)

Tajikistan

- Construction of Rogun Dam (hydropower plant) to double the energy production capacity of the country and advance the decarbonisation of the region

India

- Rehabilitation of urban infrastructure with a focus on integrated waste management and climate-sensitive urban management
- Implementation of integrated, sustainable and energy-efficient metro rail systems in Surat and Ahmedabad

EU-Asia and the Pacific flagship projects

Laos

- Increasing investment, connectivity and trade in agriculture and forestry
- Rehabilitation of an ASEAN highway

Cambodia

- Construction of water treatment plant in Phnom Penh
- Partnership in Education for green and digital jobs
- One Health for Cambodia

Vietnam

- Just Energy Transition Partnerships (JETP): Construction of Bac Ai hydropower pump storage (1,200 MW).
- Upgrading of Hydropower plant Tri An by 200MW to increase peak capacities
- Construction of the Tra Vinh 48 MW nearshore wind farm

Philippines

- Scale up service provision from the Copernicus mirror site to provide high-speed internet capacity

Papua New Guinea

- Rehabilitation of the port of Rabaul
- Development of economic corridors and agricultural trade
- Strengthening integrated sustainable landscape management in Enga province

Indonesia

- Investment plan via the Just Energy Transition Partnership (JETP) to expand renewable energies, phase down on and off-grid coal-fired electricity generation
- Double tracked upgrading and electrification of suburban train
- Smart City connectivity in Nusantara city of Indonesia

Malaysia

- Development of the port of Lumut

Fiji

- Construction of Qaliwana and Vatutokotoko hydro power plants in Viti Levu
