LESSONS LEARNT

LOCAL AND ROOTED ADVOCACY is an important tool to raise awareness at the local level, and to fuel community engagement and ownership. Local communities need to be involved in identifying needs and challenges, as well as programme planning and implementation.

ANALISE THE CONTEXT AND CONSIDER THE RISKS to find the right approach for the situation at hand to protect people and do no harm, particularly in fragile settings.

BECOME BETTER AT WORKING WITH A MORE INCLUSIVE, LOCAL GOVERNANCE APPROACH to reach community awareness and build longer-lasting impact. This can happen by facilitating necessary cross-sectoral coalitions and synergies among implementers, funders and stakeholders.

STRIVE TO HAVE AN INTEGRATED AND HOLISTIC APPROACH to community service. We have to integrate resilience in all programming already at inception. We need to guarantee that the results we have achieved are sustainable and can be replicated by communities even when the project has ended.
