EPISODE 06

NATALIA GOMEZ, FORMER
SPECIAL ADVISER ON
YOUTH TO DG INTPA'S
COMMISSIONER

TIPS

ENGAGE WITH YOUNG PEOPLE BEFORE PROJECT DESIGN not when decisions and plans have already been made. It is important to prioritise having more youth representation in the spaces dedicated to policy making and beyond.

SUPPORT YOUNG PEOPLE-LED INITIATIVES FOR YOUNG PEOPLE because they have a better view of what is really needed when it comes to advocacy, capacity building, education, and much more.

DON'T FORGET TO INCLUDE SKILLS DEVELOPMENT AND EDUCATION COMPONENTS in the projects you design and implement.

AVOID TOKENISM, that is, don't just include symbolic initiatives for young people, but put the effort in creating meaningful projects that really address youth participation, skills development, capacity building and more.

INCREASE FUNDING FOR YOUTH INITIATIVES to ensure that activities are maintained, especially those led by local and youth organisations.
