Team Europe Initiative A Green Deal for Ecuador

Economic green recovery
through circular and
bio-economy, contributing
to Sustainable Growth and
Green Deal EU policies.

The TEI in Ecuador is composed of two actions:

Action 1:

“Develop an inclusive, sustainable and
resilient economy, stimulated by innovations
and investments at decentralised level”

1:

Develop a Comprehensive National Decarbonisation strategy that includes green financing tools and financial match-making with the private sector.

2:

Develop a pipeline of EU investment (EIB, GIZ, KfW, AECID, AFD) projects to support green infrastructure and green -efficient services at a local level.

3:

Build scalable pilot initiatives at local level that tackle chronic child malnutrition and ensure access to clean water in the long term.
