

# EU BC&E 2013

## 21st European Biomass Conference and Exhibition

### Setting the course for a biobased economy

#### 21st EUROPEAN BIOMASS CONFERENCE AND EXHIBITION

Bella Center - Copenhagen, Denmark

Conference: 03-07 June 2013 - Exhibition: 03-06 June 2013

### Don't miss EUROPE'S LEADING BIOMASS EVENT in 2013

In **2012** a total of **1,550** professionals from 63 countries attended the 20th EU BC&E and its parallel events in Milan

**87%** of our participants rate their **return on investment (time + money)** as **satisfactory, good or excellent**

**92%** agree or strongly agree that the **session content was appropriate and informative**

**88%** of conference participants **developed interesting up to excellent contacts**

**100%** are very likely or somewhat likely to **exhibit again in 2013**

**100%** of our exhibitors **made valuable contacts**

For over 30 years now, the European Biomass Conference and Exhibition (EU BC&E) has combined a very renowned international Scientific Conference with an Industry Exhibition. The EU BC&E is held at different venues throughout Europe and ranks on top of the world's leading events in the Biomass sector.

It provides an high-level scientific programme and parallel events which attract participants from a wide ranging background: researchers, engineers, technologists, standards organisations, financing institutions and further.

Such a global platform of current knowledge in turn attracts industrial exhibitors, making the Conference events a significant tool for technology transfer and innovation.

This EU BC&E is supported by European and international organizations such as the European Commission, UNESCO - United Nations Educational, Scientific and Cultural Organization, Natural Sciences Sector, WCRE - the World Council for Renewable Energy, EUBIA - the European Biomass Industry Association, and other organisations.

The Technical Programme is coordinated by the European Commission, Joint Research Centre – JRC.

#### Targets and content of the EU BC&E

The Conference will discuss major issues for the biomass markets, in technical and business areas, from resource assessment to market and policy developments, drawing on leading experiences from all over Europe and worldwide.

The event aims to encourage an international exchange of experience on policy, research and development, manufacturing and installation, and to be a showcase for the latest technologies.

The 2013 EU BC&E will be one of the leading annual meeting for the international biomass community.

#### Grab the opportunity to play an active role in this high profile event and showcase your expertise!

Denmark is globally acknowledged as a hub for cleantech companies and as an example of sustainable development in renewables.

This is particularly true for the biomass and bioenergy community, where Danish initiatives are often cited as best practices in many bioenergy branches.

The conference is expanding its coverage on the growing issue of bioeconomy, a sector that has strong links to bioenergy where Denmark became a leading country.

#### Copenhagen - an ideal location for the 21st edition of this European event

Copenhagen has unique facilities, transports and logistics to host attendees from all over the world, while offering great attractions for social activities during the conference week.

Hop on a bike and experience Copenhagen's renewable environment by participating at the 21st EU BC&E!
