

MOBILIZING AND TRANSFERRING KNOWLEDGE ON POST-2012 CLIMATE POLICY IMPLICATIONS

POLIMP - Mobilizing and Transferring Knowledge on post-2012 Climate Policy Implications is a research project funded by the European Commission, under the 7th Framework Programme for Research, which initiated in May 2013 and has a duration of 36 months.

POLIMP explores, for different policy and decision making levels, knowledge gaps and needs about implications of possible directions of EU and international climate policies. The above focus on the policy and decision makers, as well as the actors who influence them, such as businesses, researchers and NGOs. Subsequently, POLIMP covers these gaps with:

- ✓ Knowledge packages derived from stakeholder consultation,
- ✓ Analysis of climate policy decision at national, EU and UN policy levels, and
- ✓ Review of ongoing research.

NEWS & EVENTS

Final POLIMP Stakeholders Workshop, Berlin, Germany

The Final POLIMP Stakeholders Workshop “Challenges for low carbon technology support in Europe - lessons learnt from existing policies” has been successfully held on the 15th of September 2015, in Berlin, Germany, hosted by Ecologic Institute.

Main objective of the Workshop was to bring together the main messages gathered from engagement with stakeholders in many EU Member States under the POLIMP project by uniting them under the theme of “low carbon technology support policies in Europe”. This theme is broken down into three distinct sub-themes:

1. FINANCING for low carbon technology – the renewable energy example
2. Public ACCEPTANCE of technology options – managing risks
3. What role for EMISSIONS TRADING in low-carbon technology deployment?

POLIMP Webinars

The first two Webinars of the POLIMP Webinar Series were successfully implemented, aiming at actively engaging stakeholders and developing the POLIMP community.

[Webinar 1](#), on July 7th, “Paris 2015: lessons from the Copenhagen experience” explored the lessons that can be drawn from the experience of the negotiation process towards the 2009 Copenhagen climate summit.

[Webinar 2](#), on September 16th, “Reform of the EU ETS: Making it fit for 2030” discussed the recent legislative proposal for a revision of the EU-ETS, adopted by the EC and the possible impact of such a reform on the EU Climate and Energy targets for 2030.

REPORTS

POLIMP Reports on the effectiveness and the impacts of Climate Policy

“From Lima to Paris: Effectiveness and efficiency of the proposed new international climate regime in delivering the required global mitigation objective”

[Report](#)

[4.1](#)

This report synthesizes knowledge on the environmental effectiveness and efficiency of new international climate regimes in delivering the required global mitigation objectives (2°C target) with specific consideration of the decision taken since the Lima Climate Conference in December 2014.

“Socioeconomic impacts of a new climate regime on the EU”

[Report](#)

[4.2](#)

The aim of this report is to give an overview of socioeconomic and environmental impacts of climate policies, as they are critical for the acceptance of such policies among policymakers and public. The focus is on the impacts of the EU's 2030 framework in a likely international 2030 climate policy context. The report compares different studies as well as quantitative and qualitative assessments
