Dear Giorgia,

We approve the comparative analysis of the cashew, rice, mango and fisheries value chain in Guinea Bissau.

Kind regards

Jean-Paul

Subject: Re: VCA4D// Guinea Bissau_ comparative analysis_ final report for approval

Importance: High

Dear Jean Paul

Following from the comments of the EU Delegation (addressed in the final version attached), we kindly ask your approval for the comparative analysis of the cashew, rice, mango and fisheries value chain in Guinea Bissau.

This analysis was presented in a joint workshop on the four value chains and findings were discussed with all local stakeholders and the EU delegation.

Please let us know if this report can be approved or you have further comments/requests of clarifications.

Many thanks

Giorgia

Subject: RE: VCA4D// Final report comparative anlysis _ final reading by EUD

Dear Giorgia,

Thank you for all the work. Please find attached two of the documents with some editing suggestions in track changes, and one suggestion on the substance, concerning the convenience to add a very short line or paragraph to explain the choice of paddy rice vs milled rice as final product of the rice value chain. This point was raised and discussed a couple of times orally but there is no mention of it in the documents.

I believe these points will not take more than 5 minutes to be addressed, so they should not be a problem for the approval deadline.

As for the next steps, I take advantage of this e-mail to suggest a short VTC with Jean Paul next week. Ana Sofia will be in Brussels for the Private Sector Seminar and might also liaise in person with Jean-Paul. So far I am relatively free on Tuesday, Wednesday and Thursday (30 June, 1st and 2nd July) afternoons, so Jean-Paul please feel free to send an invite for one of those days.

Kind regards,

Jorge VALIENTE
