**Do we have shared objectives? Are there some emerging common issues/priorities?**

- Obstacles - what hinders us to achieve all above-mentioned?
- Money concentrated into few hands
- Main causes? – states, corporate interests
- Shared objectives:
- Rights are universal – equal for all people
- Need to go decent – workers rights
- Social protection and basic services for all
- Habitat rights
- Right for development

**Can we support those together? How can the PFD be a useful tool in that purpose (common approach)?**

## How

- Influence of EU on developing countries governments
- Influence on large companies
- Stability of currency
- Holding states and private interests accountable
- Universal access to information and technology
- PFD – EU policy should follow the concept of universalisation of human rights and advocate for it
