

Newsletter Issue: July 2016

ENSPOL is an EU-funded project targeting the effective and proper implementation of Article 7 of the Energy Efficiency Directive (EED) in all Member States (MS) and beyond. Major objective of ENSPOL is the establishment, revision and implementation of robust Energy Efficiency Obligation (EEO) Schemes or alternative policy measures to each MS. At the same time the ENSPOL envisages the provision of appropriately refined information and supportive strategic tools to all targeted stakeholders.
