

Project: I Care - Reinforce the network and look to the future

Programme: ERASMUS+ - Key Action 1 : Mobility of individuals

PROJECT ABSTRACT

The project "I Care - Reinforce the network and look to the future" is aimed at fostering the networking of youth workers and organisations from different countries with particular focus on the actual and to enhance the cooperation between organisations in the youth field and other stakeholders at EU/International level. Promote awareness of the main grant opportunities in youth policies field with particular focus on the EU programmes and improve the participants' key competences and skills in the European project management. Reinforce the capacities and international scope of the participating organisations (by establishing new partnerships and collaborations).

The project "I Care - Reinforce the network and look to the future" involves **nine not for profit organisations, from nine EU countries**, operating in the youth policies field at European level. Each organisation is represented by trainers, project developers or youth policies experts who aim to improve the working methodologies through the acquirement of new skills and knowledge. In addition, the youth workers are interested in sharing information and ideas in order to identify opportunities to collaborate and present projects in response to specific calls within the framework of the EU Programmes.

During the "seminar", a sort of international conference and contact-making event, youth workers will participate to interactive sessions on EU Programmes and Fundings, Project Cycle Management, Networking and Communication by contributing with their own specific skills and experiences. In particular, each participant will present at least one project idea that will be discussed and considered as a potential project to be jointly developed.

The "final phase" concerns the development of project ideas and the establishment of new partnerships and collaborations between organisations from different EU countries as well as the submission of projects to the National Agencies.

PARTICIPATING ORGANIZATIONS (2ppts for each partner):
