

DISCOVER AND CONTRIBUTE TO THE PIONEERING KNOWLEDGE & INFORMATION SHARING PLATFORM:

www.LocalizingTheSDGs.org

The 2030 Agenda for Sustainable Development defines an ambitious set of 17 **Sustainable Development Goals** – the SDGs- whose achievement will require strong leadership of local and regional governments (LRGs). This platform offers practical tools to LRGs and other local stakeholders to implement and review the SDGs locally and make decisions towards its achievement.

The platform builds on existent experiences. You can enrich this global exercise by uploading and sharing your experiences, tools and instruments, and engaging in real-time discussions with all participating partners.

Your experiences matter!
