

# Action to Implement the Paris Agreement & ACP Climate Action Plan

Special meeting of the Sub-committee on Sustainable Development on  
COP 22Outcomes and Roadmap to COP 23

Jan Kellett, Special Advisor, UNDP Climate Change and Disaster Risk  
Reduction

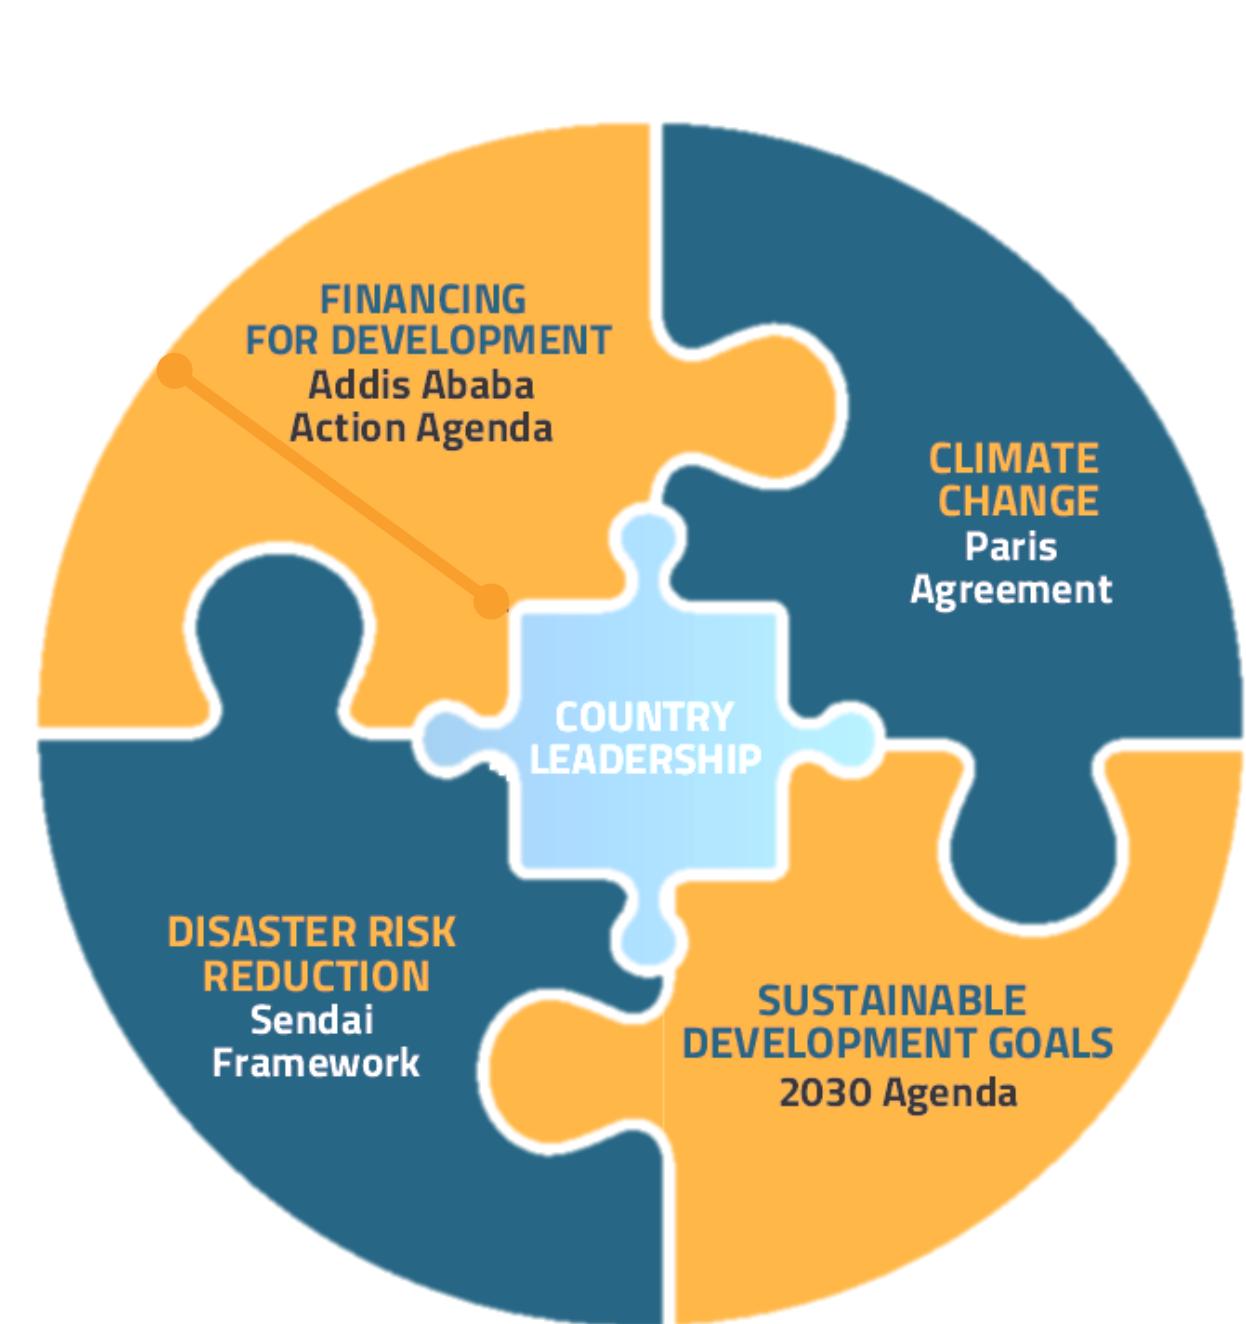

# A vision towards a zero-carbon and climate-resilient sustainable development path

UNDP is an established partner providing support to countries to identify linkages and joint opportunities for the implementation of policy and programmes that can both meet and aim to exceed the aspirations of national climate pledges and development goals.

UNDP believes that an integrated approach, driven by a country's leadership, is necessary to transition towards zero-carbon and climate-resilient sustainable development.

# Connect the key global agendas

# Building decades of experiences UNDP has a key role to play

STRENGTHENING  
CAPACITIES OF THE  
MOST VULNERABLE

BROKERING ACCESS TO  
CLIMATE FINANCE

SUPPORTING THE  
IMPLEMENTATION OF  
CLIMATE TARGETS

BRIDGING CLIMATE  
AND DEVELOPMENT

OPERATING AN EXTENSIVE  
ORGANIZATIONAL  
INFRASTRUCTURE

BUILDING AND MAINTAINING  
PARTNERSHIPS AND  
INNOVATION

# UNDP's climate commitment

## ZERO-CARBON GROWTH

Implement Nationally Determined Contributions

Integrate Zero-carbon Development

Deliver Sustainable Energy

Reduce Emissions through Protecting Forests

## ADAPTATION AND RESILIENCE

Strengthening Integrated Adaptation Policies, Plans and Strategies

Advance Cross-sectoral Adaption Action

Address Climate and Disaster Risks

Instilled Risk-informed Disaster Recovery

Strengthening capacities

Catalyzing finance

Leveraging partnerships

Promoting social inclusion and gender equality

# UNDP's climate change portfolio – A global overview

## Access to grant finance

Since 2008

ADAPTATION

**37%**

\$1.02 billion

MITIGATION

**30%**

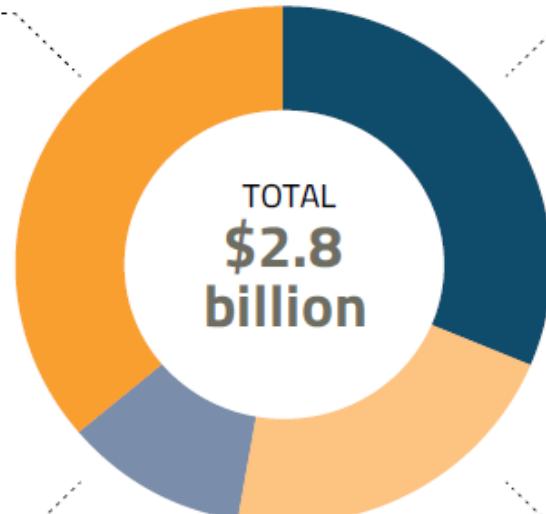

\$852 million

CROSS-CUTTING

**11%**

\$304 million

140 countries

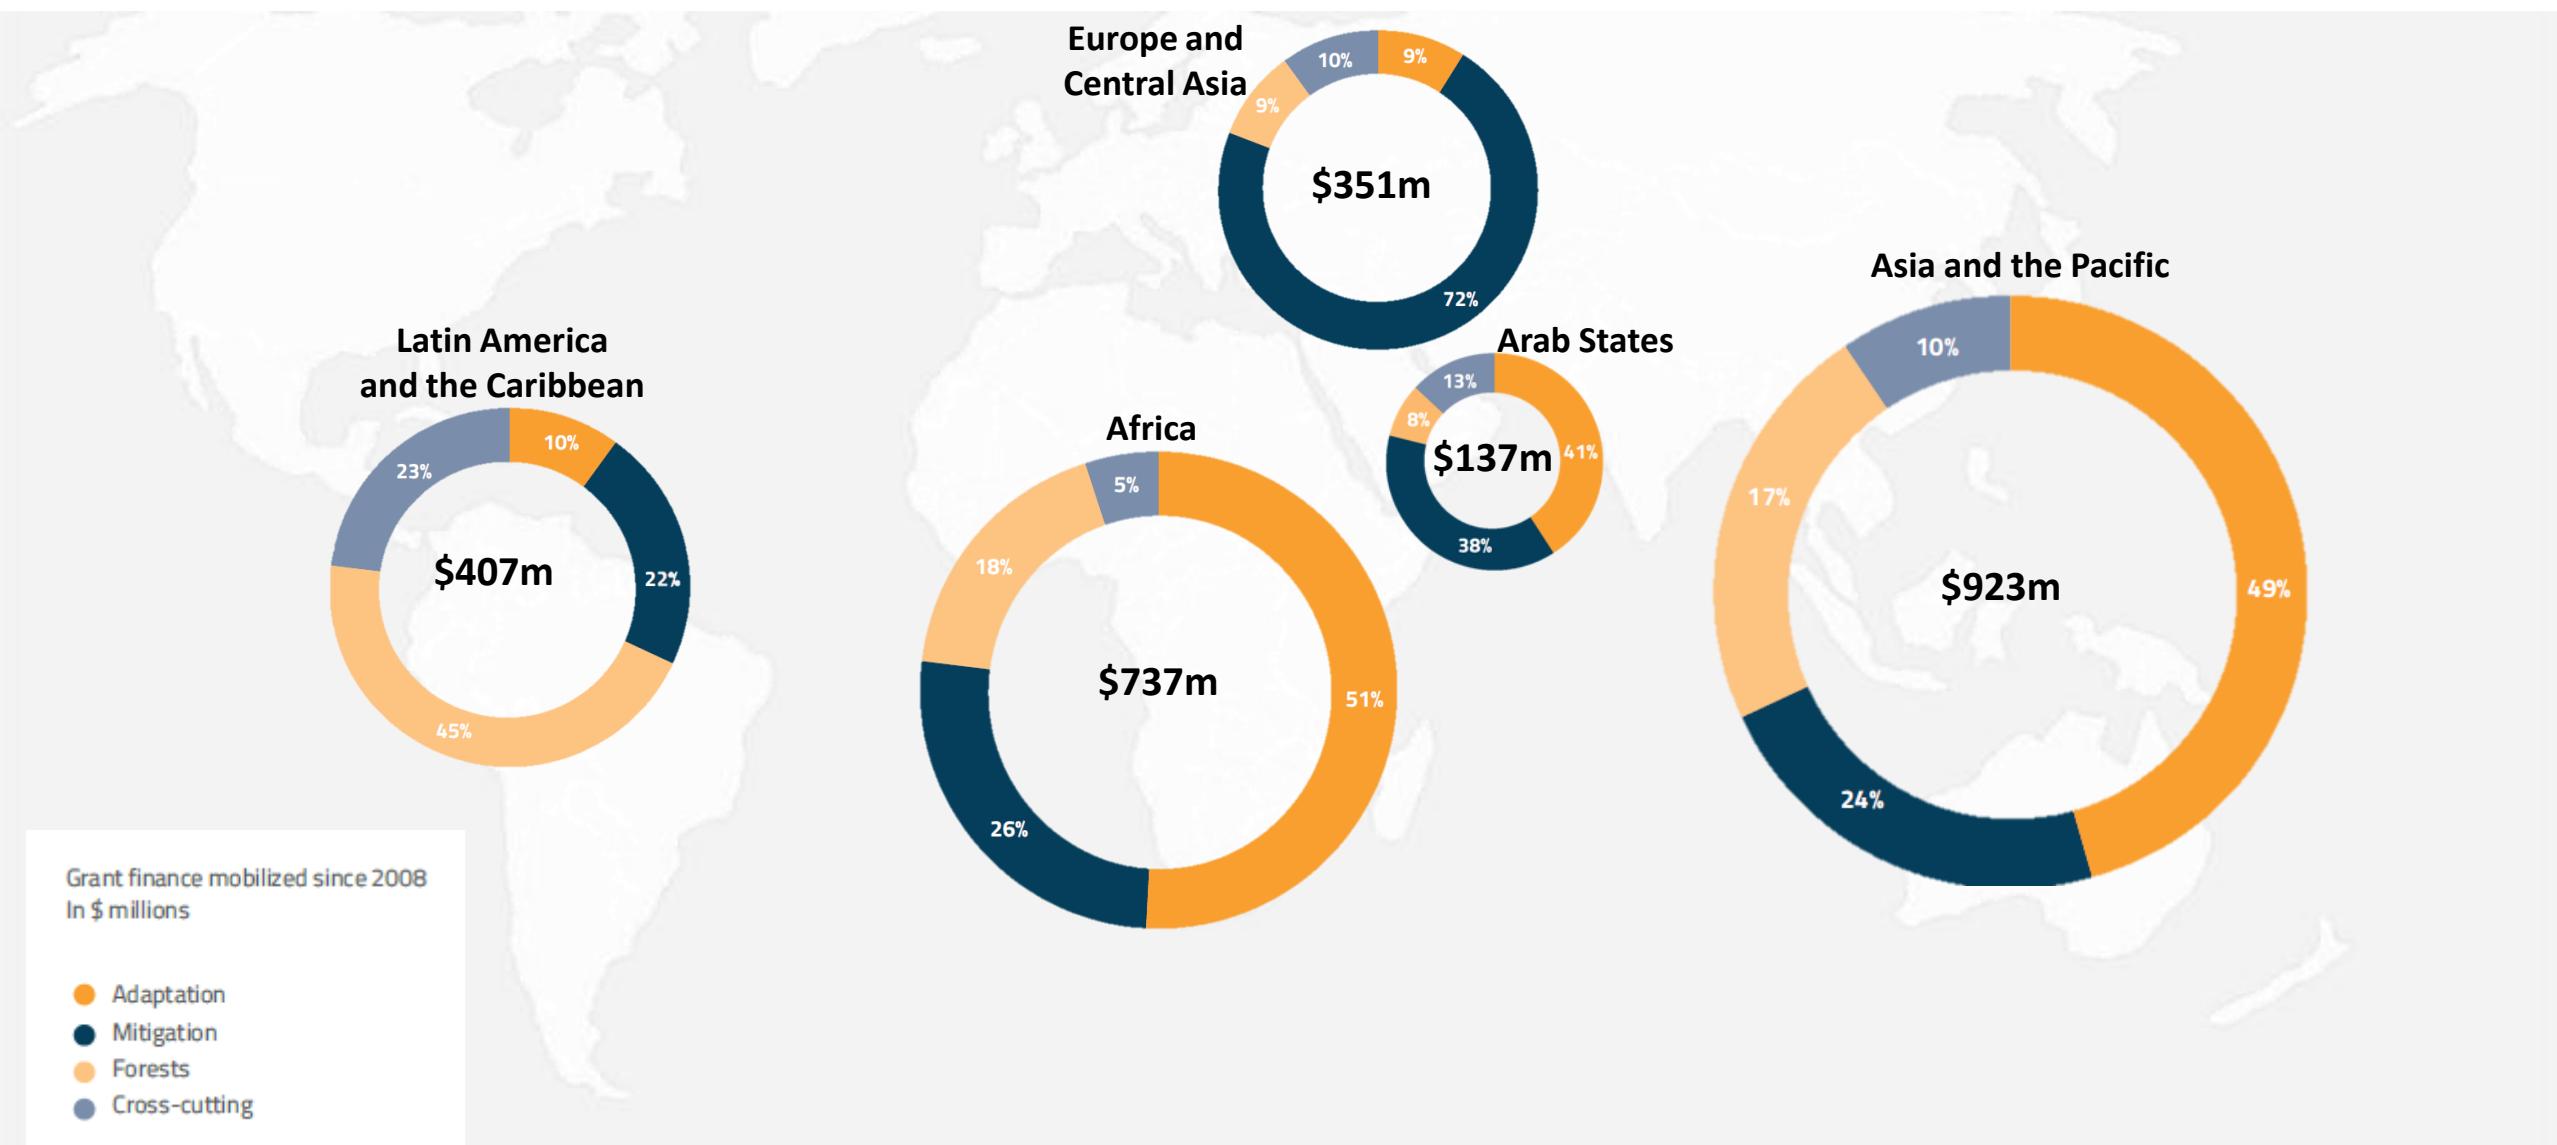

FORESTS

**22%**

\$625 million

# UNDP's climate change portfolio – Regional Overview

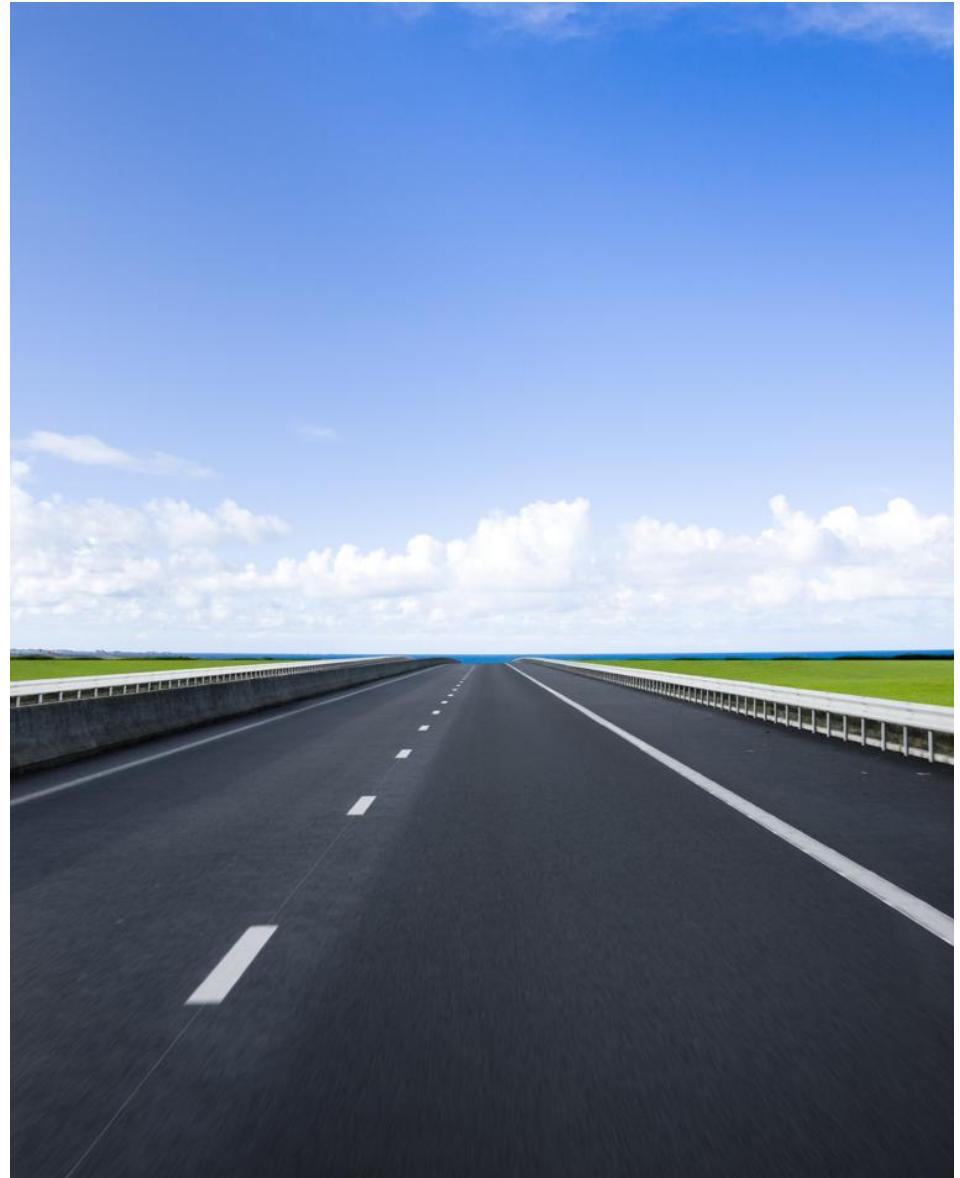

# UNDP Support on INDCs and Post-Paris Process

- Leading provider of support to developing countries on INDC preparations through the support of the EU and other donors. Technical and financial support was provided for:
  - Strengthening **negotiation capacities** for COP delegations
  - **Formulation of INDCs** in 43 developing countries, and post-Paris, the **design of NDC implementation plans** in 38 countries.
  - Global workshops and two rounds of **Regional Technical Dialogues hosted by UNDP & partners** to facilitate INDC development, and post-Paris NDC implementation planning. Over 1,000 participants from 130 countries benefited from each round.
  - Development of **INDC and NDC Guidance Document** through participatory approach (feedback through survey, Regional Technical Dialogues, e-discussion etc.)
  - Formulation of tailored **mitigation and adaptation actions, plans and strategies** and strengthens institutional capacities to implement NDCs.

# Road to COP 23

- Definition of “**Rules**” for the Paris Agreement incl.
  - Access to financial, technical and capacity building support
  - Expectations for monitoring, reporting and verifying activities
- SIDS COP 23 Presidency as an opportunity to highlight the **special circumstances of most vulnerable countries**
- COP 23 to set the tone for linking national activities under the Paris Agreement with the SDGs, Sendai and Addis

# UNDP Support for COP23 - Negotiations

## Negotiations

- **Technical and advisory support** to COP Presidencies, country delegations, regional groups, coalitions, and chairs of negotiating tracks on key issues of the UNFCCC negotiations.
- **Helping delegations design the “rulebook” for the Paris Agreement**, including on NDCs, mitigation, adaptation, transparency, finance, capacity building and forests.

## Country-Level

- Support for **Implementation of UNFCCC outcomes** delivering programming under the GCF, GEF, AF and other multilateral and bilateral partners
- Support for **NDCs and mitigation and adaptation action, plans** (NAMAs, NAPs, NAPAs and more).

# **Highlights: ACP Country Examples of EU-funded INDC & NDC Implementation Planning Support**

# Barbados

INDC Submitted	Paris Agreement Signed	Paris Agreement Ratified
September 30, 2015	April 22, 2016	April 22, 2016

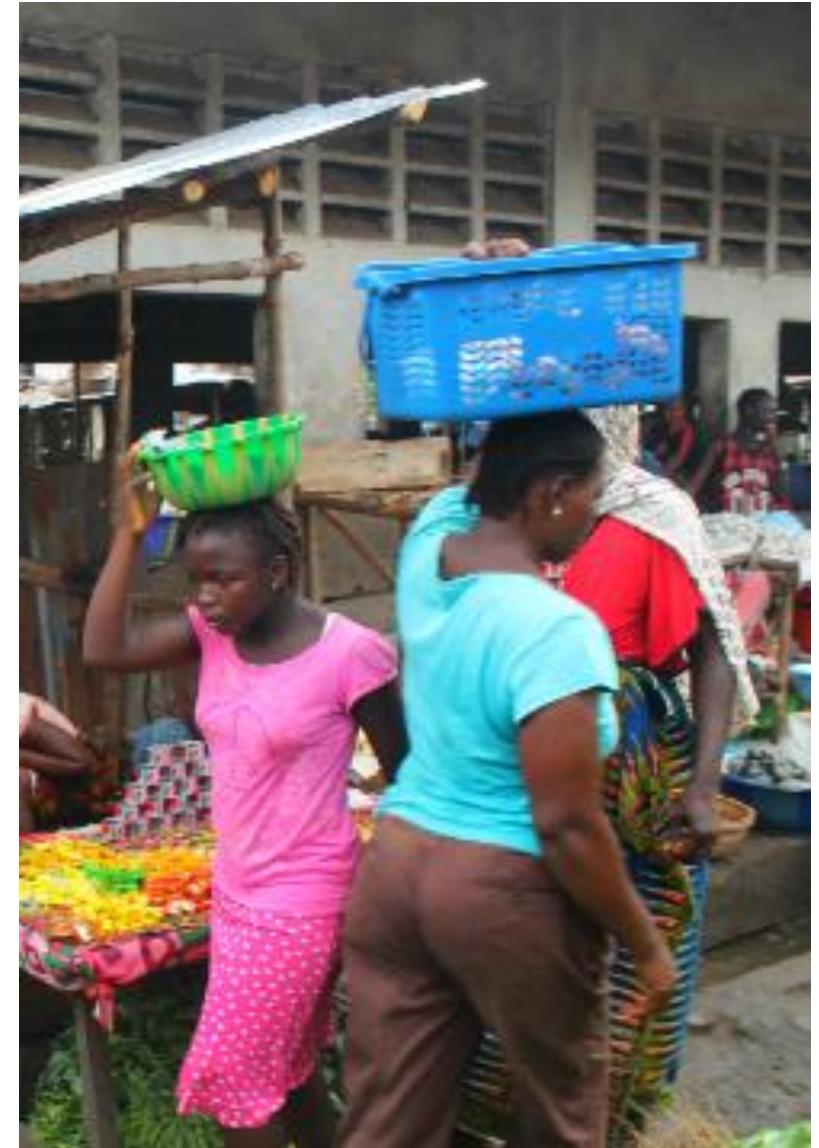

- Developing an **NDC Implementation Plan** with key sectors in environment, energy, transport, water, finance
- Held a **national dialogue** to discuss NDC Implementation planning, assessment of Sustainable Development impacts of NDC activities
- Developing a **National MRV System** tracking adaptation, mitigation, climate finance, SD, green economy
- Conducted **sectoral assessments for vulnerability**, and opportunities to integrate adaptation & mitigation actions
- NDC booklet – access to UNFCCC Technology & Finance mechanisms

# Sierra Leone

INDC Submitted	Paris Agreement Signed	Paris Agreement Ratified
October 1, 2015	April 22, 2016	November 1, 2016

- National consultations to identify long-term mitigation and adaptation strategies, **National MRV System and NDC Roadmap**
- Reviewing the 2008 Environment Protection Agency Act to incorporate issue of NDC and Climate Change;
- **Proposing 1991 constitution** under revision to include chapter on the Environment, Natural Resources and Climate Change
- **Broad public engagement** campaign through broadcasting, youth and environmental clubs

# Nigeria

INDC Submitted	Paris Agreement Signed	Paris Agreement Ratified
November 18, 2015	April 22, 2016	Not Yet

- Preparation and technical assistance for Nigerian COP22 delegation
- Developing **five sectoral action plans** for Agriculture, Industry, Oil & Gas, Energy and Transport (draft action plans done), along with a MRV discussion note.
- Conducted **assessments of sectoral governance environment and policies**
- Will develop 'lighthouse'/**demonstration projects** for each of its five sector action plans to demonstrate impact

# Samoa

INDC Submitted	Paris Agreement Signed	Paris Agreement Ratified
November 23, 2015	April 22, 2016	April 22, 2016

- **NDC implementation target** of 100% Renewable Electricity
- Conducted **major consultation with key stakeholders** from the Energy Sector for NDC target and development of RE registry framework
- Substantive **review of policies, regulation and legislation**
- **Launched NDC Roadmap** on National Energy Day - including an Awareness Day celebration & NDC School Awareness Campaign

*Empowered lives.  
Resilient nations.*

Thank You!
