

**M5.HO1.- Designing protection objectives: What and Why?**

<b>Defining protection objectives and outcomes</b>				
Threat (selected)	Objectives	Changes in behaviour of perpetrators	Improvements in compliance by duty-bearer stakeholders	Direct changes in lifes of people
who does what to whom, where, what for  Strategic or tactic (explain)	What would happen if threat becomes reduced?  Or: how would we know that the threat is reduced (or some of its aspects)	Which should be the actions taken by perpetrators? Why would they do it? How would they do it?	Which should be the actions taken by DBS? Why would they do it? How would they do it?	What should happen (Vuln or Cap)? Which would be the effect of that change on the Threat, or on perpetrators, or on DBS?
		↑ Paths of influence	↑ Paths of influence	↑ Paths of influence / actions
