

March Global PFD 2017  
Guidance for panel speakers  
Inclusive Multi-stakeholder partnerships

Focus on one or two examples of multi-stakeholder partnership in which you have personal experience.

What is unique or important about the partnership? Describe which sectors are engaged and the purpose of the partnership

What has worked well?

What has been challenging?

How have you overcome specific challenges?

And how have you met your goals? or why have you not as of yet?

What would you do to improve your partnership?

How can these examples of partnership be used for the implementation of Agenda 2030 and EU Consensus on Development?
