

## **Annex 1**

### **Indicative list of activities - TPSDE Facility**

**Advisory services** to increase the capacity of EU Delegations, partner countries and Headquarters to understand and implement the new policy orientations in terms of TPSDE, in particular the new External Investment Plan and improve the quality of DEVCO interventions.

- Support the Delegations and partner country in promoting private sector engagement for sustainable development.
- Define the state of play and make recommendations in targeted countries/regions to promote sustainable investments, including an enabling business environment (collect information on business climate reforms, investments frameworks, existing support programmes, and make recommendations).
- Support the Delegations in setting up, enhancing and facilitating structured dialogue fora with EU and local private sector, explore and support EU Chambers of commerce and industry type institutions in partner countries.
- Identify ways for partnering with local businesses for development and leverage resources for sustainable development.
- Support the Delegations and partner countries in understanding the new orientations in terms of Aid for Trade.
- Thematic support to improve the quality of the interventions in specific TPSD topics (identification, formulation and implementation of projects and programmes).
- Thematic support to improve the results measurement of TPSD interventions.
- Preparation and delivery of seminars and workshops on TPSDE (value chains, access to finance, private public partnerships, trade facilitation, inclusive business, investment climate)
- Support the creation of a DEVCO TPSDE community of practice to create and share knowledge around TPSDE topics.
- Knowledge sharing, dissemination of TPSDE methodological tools, guidance notes, good practices in Delegations and partner countries.
